

Township of Woodbridge Flood Protection Information

This program has been developed to help minimize risk within floodplains, and in order to reduce the amount of flood damage sustained during future flood events. Some areas of Woodbridge Township have been historically susceptible to flooding, and as a result it's important to know how to prepare for, respond to, and recover from a potential flood event. The Department of Homeland Security has developed a Flood Preparedness worksheet to learn more about how to properly prepare for a potential flood event.
